Subject: RE: San Jacinto Groundwater Wells
Date: Tuesday, January 28, 2014 9:55:00 AM

David,

Lets hold off on plugging the monitoring wells. Given the community's concern about ground water and to make sure that there is no change in status in the future, leaving the monitoring wells would allow for future sampling.

Regards,

Gary Miller

Subject: San Jacinto Groundwater Wells

Gary – At this time, we feel that the groundwater monitoring wells that were installed as part of investigations on the areas south of I-10 have met their objectives, and there is not a need for further data collection from those wells. With your concurrence, we would like to start planning for abandoning and plugging those wells as required by Texas regulations.

Please let me know if you have any concerns with us moving forward with planning for the abandonment of those wells.

Thank you,
David
